Glass Solutions

Strength, Aesthetics & Functionality

Glass Solutions

Toughened Glass

Engineered for safety and durability, toughened glass is designed to withstand high impact and thermal stress. It is ideal for architectural facades, office partitions, and residential windows, ensuring structural integrity and longevity.

Glass Solutions

Tinted Glass

Providing both aesthetic appeal and functional benefits, tinted glass enhances privacy, reduces glare, and minimizes solar heat gain, making it perfect for energy-efficient buildings, commercial spaces, and decorative applications.

Phone
+91 9156420111

Glass Solutions

Fiber Glass

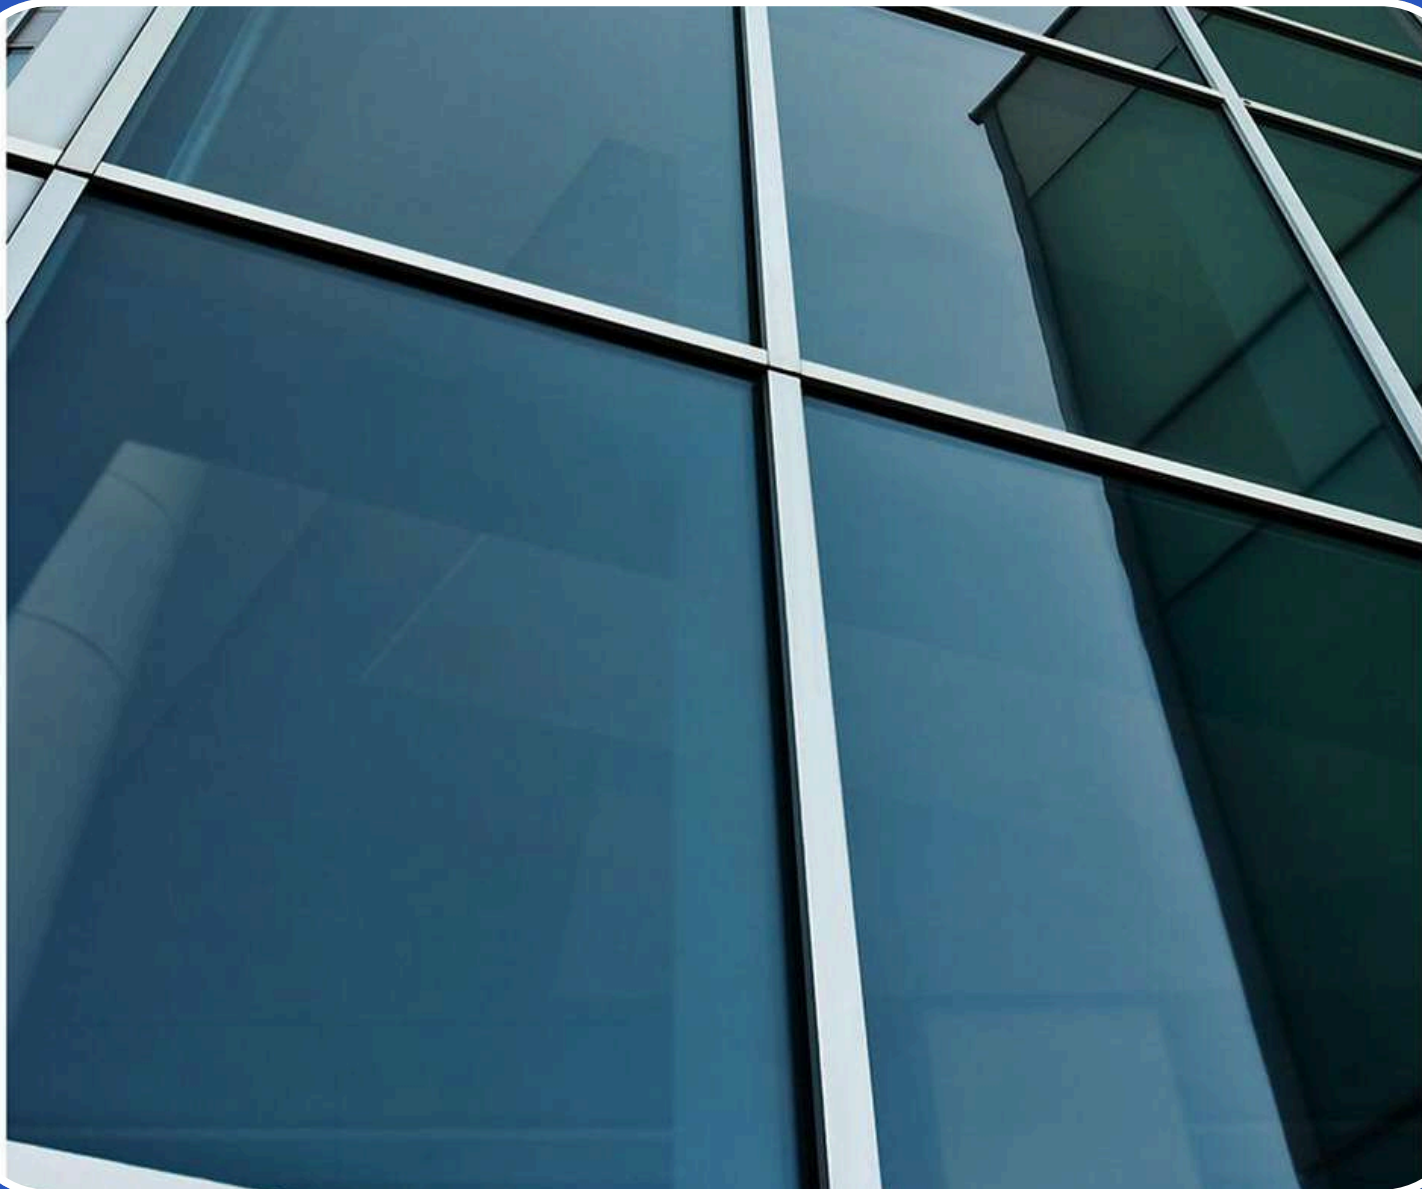

A lightweight yet highly durable and weather-resistant material, fiber glass is used in industrial setups, roofing panels, and skylights, offering superior thermal insulation and corrosion resistance.

Glass Solutions

Gogal Glass

Designed for high-precision applications, Gogal glass is known for its optical clarity, chemical resistance, and durability, making it essential for machinery enclosures, laboratories, and industrial instrumentation.

Phone

Glass Solutions

Fluted Glass

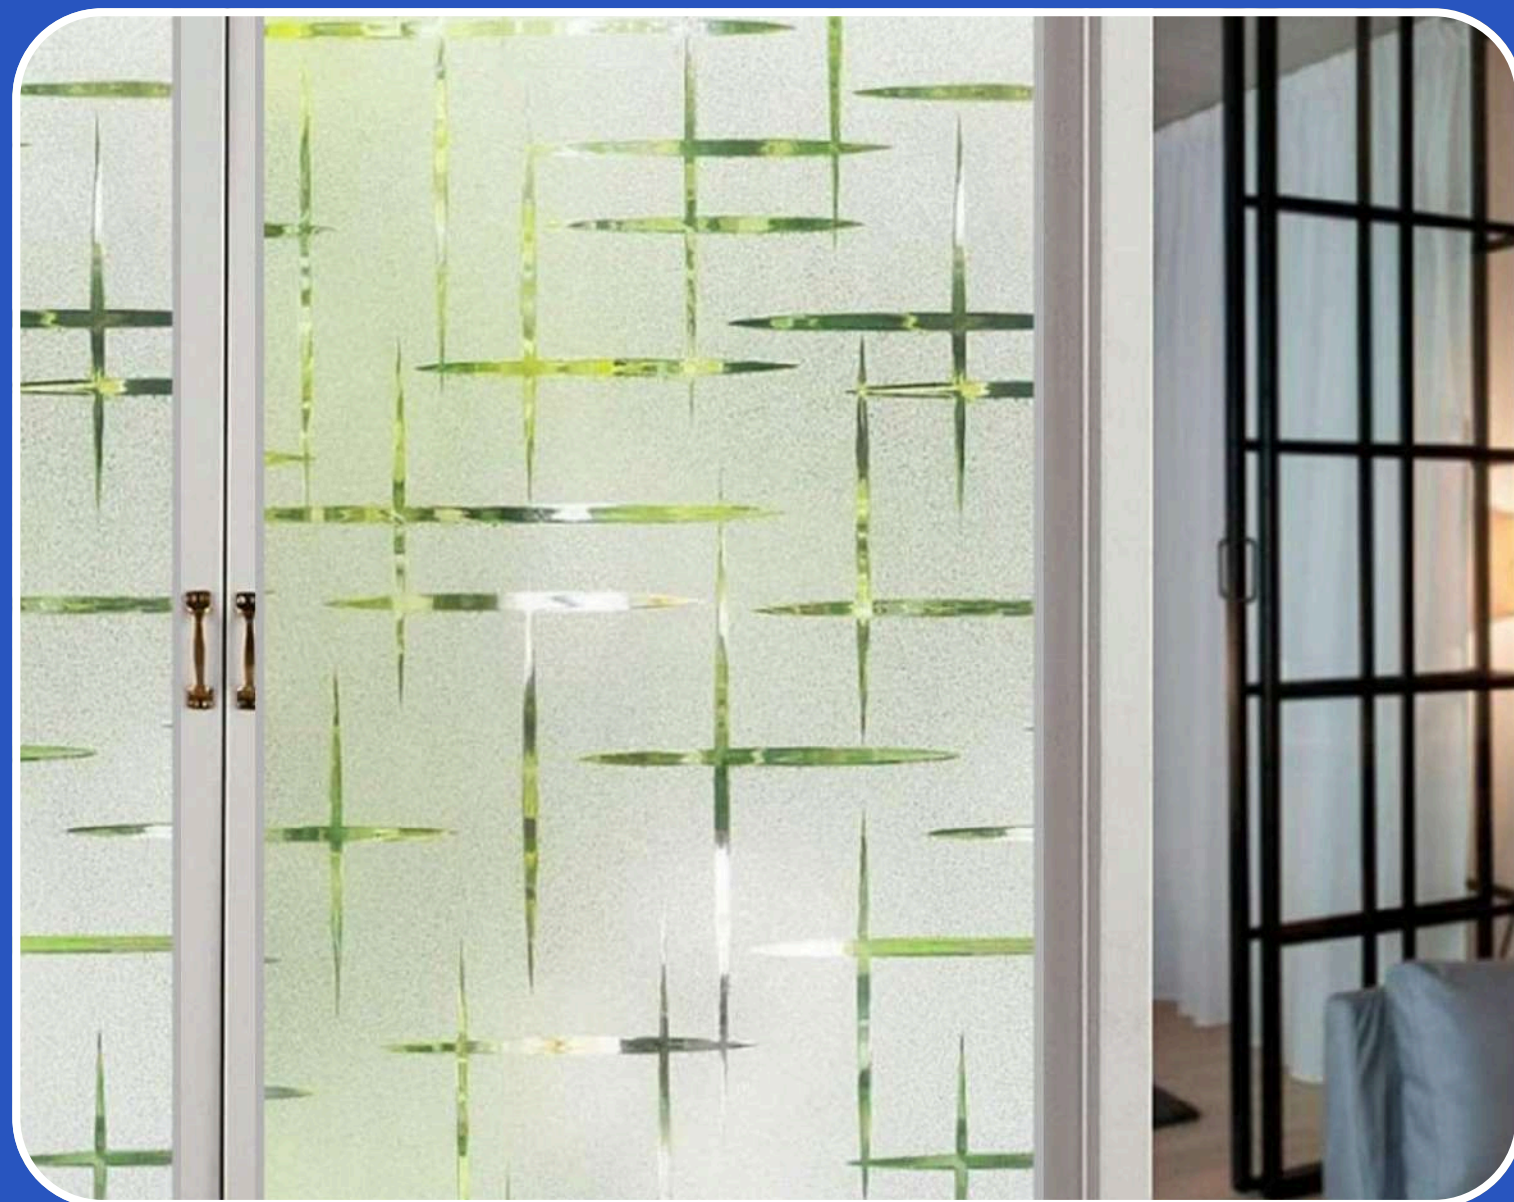

For a modern, textured look, fluted glass adds a decorative element while maintaining privacy. It is widely used in corporate offices, luxury interiors, and commercial partitions for a sophisticated architectural appeal.

Glass Solutions

Glass Filming

Enhancing both protection and aesthetics, our glass filming solutions include UV protection films, security laminations, and decorative films for residential and commercial applications.

Phone
+91 9156420111

Glass Solutions

Etching Glass

Etching glass adds a customized, artistic touch to spaces. Through sandblasting and acid-etching techniques, we create intricate frosted patterns used in branding, signage, decorative glass panels, and corporate interiors.

Aluminium & UPVC Solutions

Strength & Elegance

Aluminium & UPVC Solutions

Aluminium Glass Partitions

Offering a sleek and modern approach to interior design, our aluminium glass partitions enhance open spaces while ensuring structural stability. These are widely installed in offices, conference rooms, and retail spaces.

Aluminium & UPVC Solutions

Aluminium Windows

Our custom aluminum windows are built for longevity, energy efficiency, and aesthetic appeal. They are the preferred choice for high-rise buildings, industrial facilities, and premium residential properties due to their durability and corrosion resistance.

Aluminium & UPVC Solutions

UPVC Windows

For maximum energy efficiency and sound insulation, UPVC windows provide a weather-resistant and maintenance-free alternative. Their ability to minimize heat transfer and noise pollution makes them ideal for homes, hotels, and commercial spaces.

Architectural & Interior Solutions

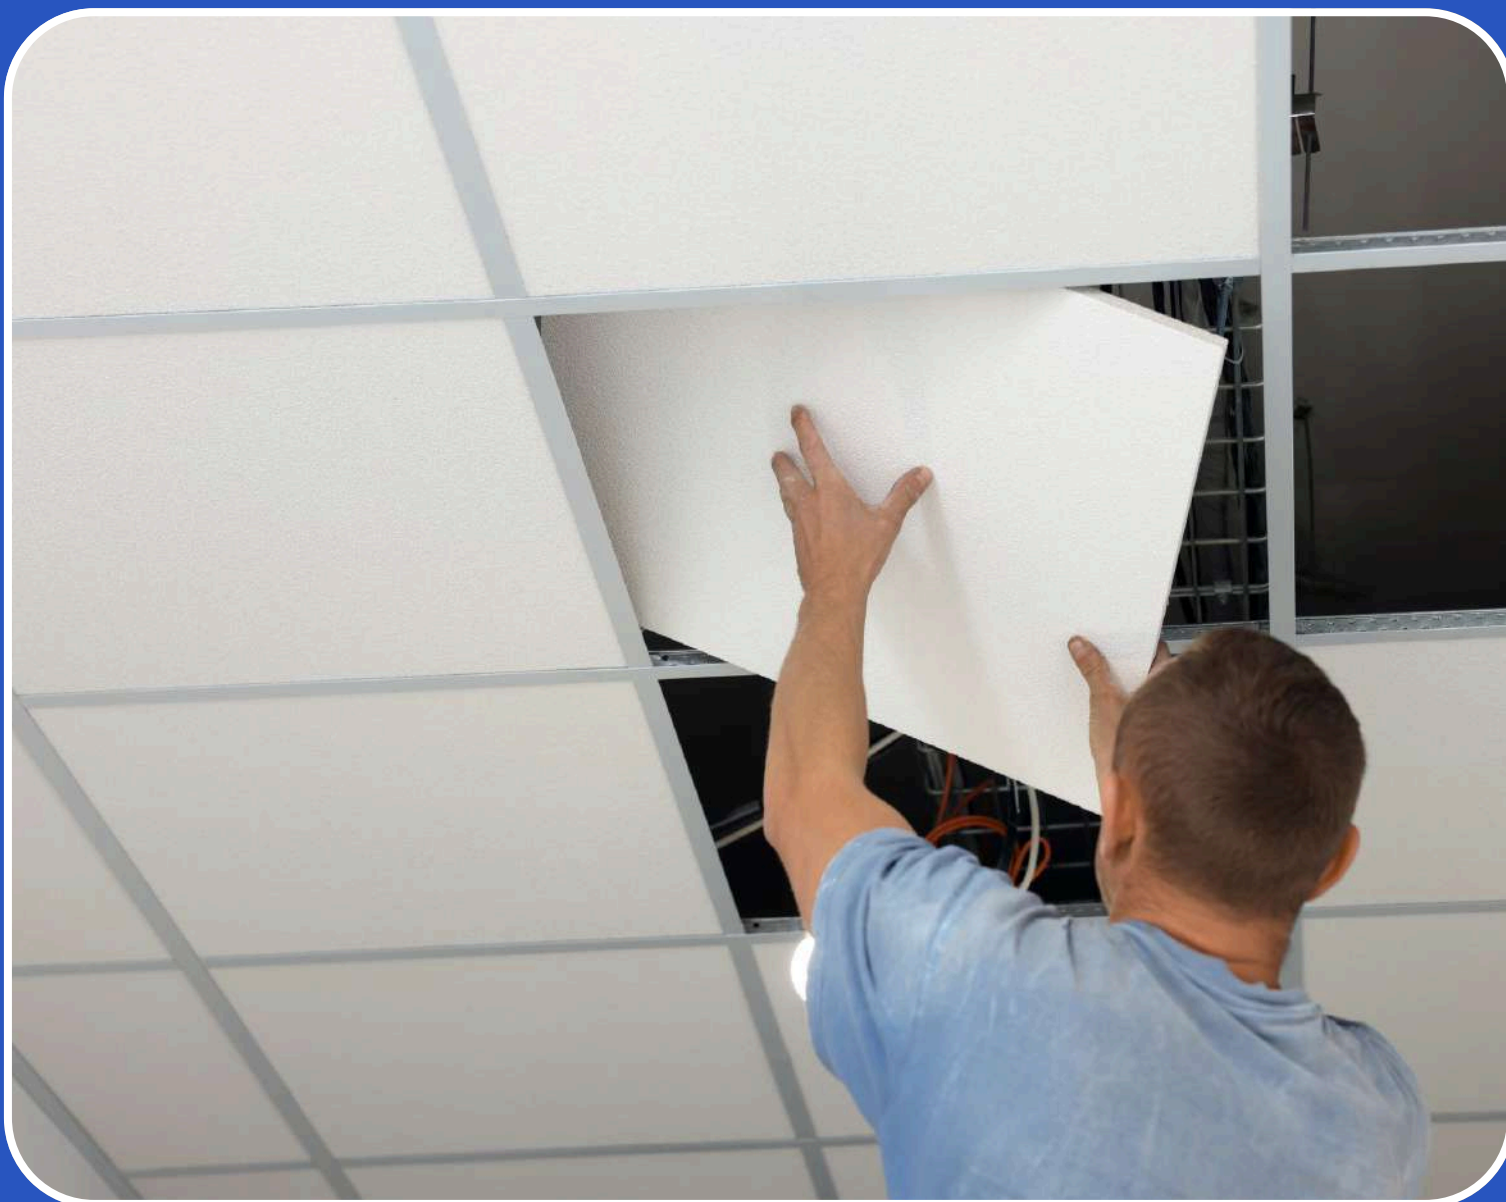

Aesthetic Enhancements

Architectural & Interior Solutions

Siling Work

Our ceiling solutions add a distinctive touch to residential and commercial spaces. Whether it's a simple false ceiling or a complex architectural structure, we create customized designs that elevate interiors.

Architectural & Interior Solutions

POP Siling Work

For an elegant and decorative ceiling design, our Plaster of Paris (POP) solutions offer seamless finishes and intricate moldings, commonly used in luxury interiors, showrooms, and banquet halls.

Architectural & Interior Solutions

SS Railing Work

We specialize in stainless steel railing systems that blend modern aesthetics with strength and durability. Used in residential staircases, balconies, and commercial spaces, our railings ensure safety without compromising style.

Specialized Glass & Architectural Solutions

Spider Fitting Glass Work

For frameless glass installations, spider fitting glass offers a seamless and modern look, ideal for glass facades, atriums, retail storefronts, and architectural glass walls. This system provides strength, wind resistance, and maximum visibility, making it a top choice for premium infrastructure projects.
